Dear Matt,

I wanted to write and let your organization know you and your staff did an excellent job for us in Dayton.

The existing concrete was in a state of disrepair and we were at a loss in regards to solving the issue. I couldn't be happier with the results of your work! I feel that Floor Technologies has allowed us to provide our customer with 100% satisfaction! Most impressive was the speed in which the job was estimated and ultimately completed. From my first call to completion was less than 72 hours. BRAVO!

I will definitely use and recommend you to others in the future!

Please pass my thanks on to your scheduler and crew.

Everyone was a pleasure to work with!

Best Regards,

Phil Boxwell
